

Predoc Program RNA & Disease Switzerland

NCCR
RNA & Disease

National Center of Competence in Research
The role of RNA in disease mechanisms

Do you want to

explore different research directions

expand your methods portfolio

build a professional network

before pursuing a PhD?

The Swiss National Center of Competence in Research (NCCR) of RNA & Disease offers the possibility to explore different research directions and environments to prospective PhD students by performing 3 rotations of 4 months each in labs of the NCCR network. Selected predoc students will receive a salary equivalent to a first-year life science PhD student in Switzerland.

Eligibility

Candidates should obtain a Master's degree or equivalent in Biology, Molecular Life Sciences, Biochemistry or a related discipline prior to the first lab rotation.

Timeline

- July 1, 2021: Application Deadline
- September 2021: Interviews
- November 2021 - February 2022: Start of first rotation
