

# Predoc Program RNA & Disease Switzerland

Do you want to

**explore different research directions**  
**expand your methods portfolio**  
**build a professional network**

before pursuing a PhD

## Aim & Scope

The Swiss National Center of Competence in Research on RNA & Disease is seeking candidates to join the Predoc program, which offers to prospective PhD students the possibility to explore different research directions and environments by performing 3 rotations of 4 months each in participating labs of the research network.

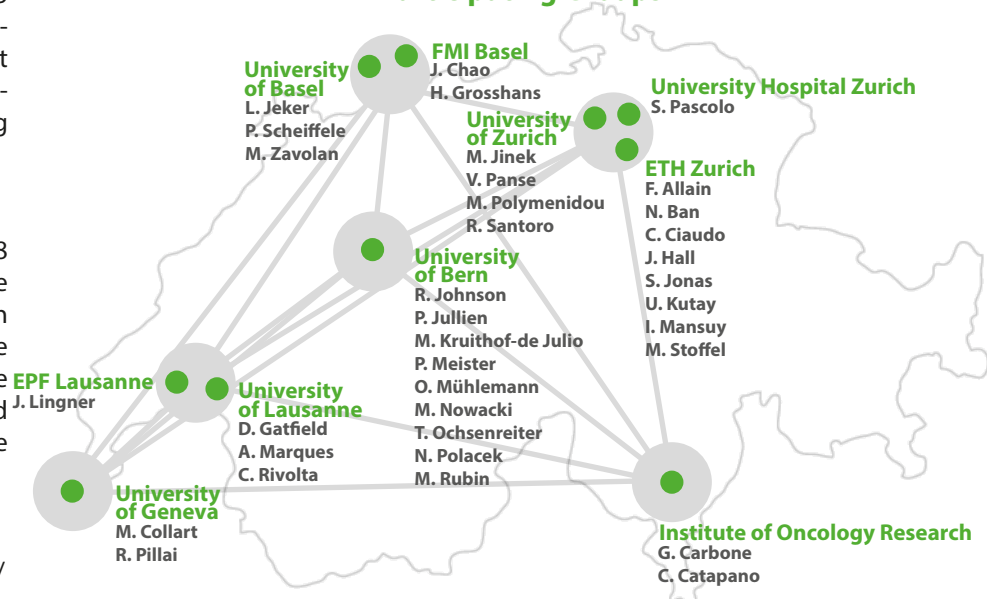

## Application & Timeline:

The first lab-rotations start between October 2018 and January 2019 and participants must have obtained by then a Master's degree or equivalent in a relevant field. Predoc students will receive the salary of a first-year life science PhD student. The application deadline for this call is July 1, 2018, and interviews with selected applicants will take place in September 2018.
