

Junior Group Leader Position "Genome Integrity, RNA and Cancer" Unit Institut Curie, France

[Institut Curie](https://www.institut-curie.org) comprises a hospital and a world-class multidisciplinary **research center** combining research in cell biology, genetics, epigenetics, immunology, soft matter physics, organic and medicinal chemistry. It includes over 3,300 researchers, physicians, clinicians, technicians and administrative staff working on three sites: Paris, Orsay and Saint-Cloud. Its core facilities include advanced imaging, high throughput sequencing, bioinformatics, reverse phase protein array, proteomics and mass spectrometry, antibody technologies, cytometry, and animal housing (<https://science.institut-curie.org/platforms/>). In addition, the hospital proximity allows access to large clinical databases and sample collections. The Institute is engaged in international partnerships, including the EU-Life alliance (<https://eu-life.eu/>) and the LifeTime initiative (<https://lifetime-initiative.eu/>).

Institut Curie is supporting the recruitment of a Junior Group Leader in the "**Genome Integrity, RNA and Cancer**" Unit, located on its research site of Orsay (south Paris), in an exceptional scientific environment within the campus of the Paris Saclay University.

The "Genome Integrity, RNA and Cancer" Unit is broadly interested in **genome integrity and gene expression**. This Unit is in a unique position to describe molecular/cellular mechanisms that underlie **genome biology** at unprecedented levels thanks to in-house complementary expertise in **DNA replication, recombination and repair, RNA biology, cytoskeleton, control of cell division and cancer biology**. Web site of the Unit: <https://science.curie.fr/UMR3348>

The newly recruited group leader will benefit from state-of-the-art research equipment. Appropriate laboratory space for 6-7 people and a start-up package will be available.

Please send a personal statement explaining why you are interested in joining the "Genome Integrity, RNA and Cancer" Unit, a 3-page research plan, a full CV detailing publication, patents, invited conferences, awards, grants, training, teaching experience and contact details of at least 3 individuals who can be contacted for recommendation letters. Successful candidates should meet criteria to compete for national and international funding, and for French institutional research positions (CNRS, INSERM or University). Short listed candidates will be invited to present their past achievements and future research program in May 2021.

Applications to be sent at: call.umr3348@curie.fr - Deadline: April 25th, 2021

For information, please contact: Stéphan Vagner (stephan.vagner@curie.fr)

Institut Curie is an inclusive, equal opportunities employer and is dedicated to the highest standards of research integrity.

HR EXCELLENCE IN RESEARCH
